PERSONAL SUMMARY

Computer Applications (BCA) student with hands-on experience in AI-assisted web development, API integration, debugging, and backend development using Python frameworks. Skilled in building and maintaining practical projects using modern development tools, cloud platforms, and AI-assisted workflows. Interested in full-stack development while gradually expanding knowledge in DevOps, system reliability, and AI security. Currently seeking internship or entry-level opportunities to gain real-world software engineering experience and strengthen practical skills.

EDUCATION

Bachelor of Computer Applications <i>KLE Society's BCA College, Dharwad</i>	07/2027 CGPA: 8.2
PUC (12th) <i>Bangurnagar Pre University College, Dandeli</i>	06/2024 GPA: 83.5%
SSLC <i>Shri Sharadhamba Govt High School, Sirsi</i>	04/2022 GPA: 93.6%

TECHNICAL SKILLS

Python, JavaScript, SQL, FastAPI, Flask, React.js, HTML, CSS, Tailwind CSS, MongoDB, REST API Development & Integration, Git, GitHub, Linux, Docker, AWS EC2 & S3, AI-Assisted Development, Debugging & Application Integration.

CERTIFICATIONS

- AWS Cloud Practitioner Essential, AWS Skill Builder
- Certified in Cybersecurity (CC) Course, ISC2
- Cybersecurity job Simulation, Mastercard, TATA, Telstra, Forage
- Getting Started with Artificial Intelligence, IBM
- Flask Python, Great Learning

ACHIEVEMENTS

- Winner - Web Designing Competition, Technova by KLE Society, 2025
- Winner - Cybersecurity Competition, Parousia by Jain College Belagavi, 2025
- Winner - Acumen (Glitch Craft), P.C Jabin BCA College Hubballi, 2026
- Winner - Agamya Cyber Tech Summit (Online Challenge), 2025
- Runner up - Cybersecurity Competition, Technova by KLE Society, 2026

PROJECTS

- [UDGOSH 3.0](#) (Built a responsive college event platform using React, Tailwind CSS, and Google Forms, supporting 500+ student registrations and contributing to a 50% increase in participant engagement compared to the previous event cycle)
- [Share Drop UI-UX](#), (Designed a vehicle-sharing platform prototype in Figma focused on simplifying ride coordination, reducing travel costs, and improving user experience through intuitive and user-friendly interface design)
- [AI-Based Phishing Detection Tool](#), (Developed an AI-assisted phishing detection tool using Python, API integration, HTML, and CSS to analyze suspicious links and support basic threat identification with automated response analysis)
- [My Things](#) (Built and deployed a product management platform using React, Node.js, Express, MongoDB Atlas, and Cloudinary to manage 50+ product records with OCR-based document storage, automated reminders, and centralized warranty tracking, helping reduce unnecessary replacement and maintenance expenses by improving product lifecycle visibility)

LANGUAGES & HOBBIES & VOLUNTEERING

Languages: English, Kannada, Hindi

Hobbies: Chess, Solo Travel, Poster Making, Bike riding, Cooking

Volunteering: Professional Avenue Director (Rotaract Club) & Placement Secretary (KLE'S BCA College Dharwad)
